We combine flexible applications
with your requirements

FM LEAN-News!

LEAN Drawer profile

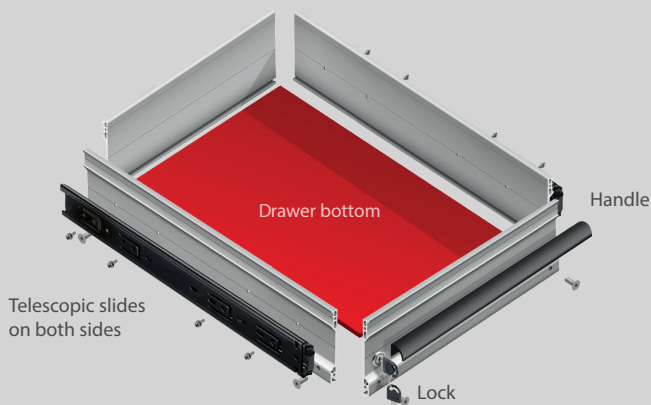

Conceived ... done!

Whether for easy **self-assembly** or as a **complete drawer manufactured by FM**: with our 100 (height: 110 mm) and 200 (height: 210 mm) profiles, drawers are designed exactly to your demands and can be customised to new requirements at any time.

Matching MyShadowboard supports visual control and also ensures safe storage of all tools and parts.

Drawer application example
with 4 drawer profiles
and add-ons

What is so special about our LEAN drawer profile?

- Cut to the required length and machined (available at short notice) or fully assembled as a complete drawer
- Customisable in length and width according to your requirements
- MyShadowboard according to your requests
- Compatible with aluminium profiles and ECO pipe system
- Can be integrated into existing assembly lines
