

FM LEAN-Neuheit!

Monitor & Tablet Holders incl. mounting set for aluminium profiles with groove

See the difference

An ergonomically optimized workspace increases both comfort and efficiency. Our new monitor and tablet holders provide a **flexible and stable solution for ideal positioning of your screens and tablets**. Made from high-quality materials, they guarantee longevity and secure support—even with intensive use.

Our holders can be easily mounted on profile systems with groove   and other common attachment points. Thanks to **individually adjustable tilt and swivel angles**, every screen can be optimally aligned to promote ergonomic posture and relaxed working conditions. Whether in the **office, production, or home office**—our holders ensure maximum comfort everywhere.

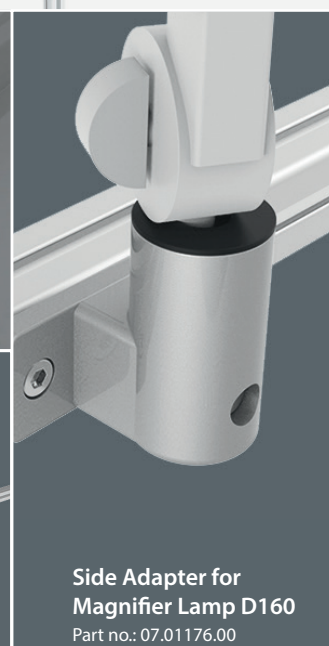

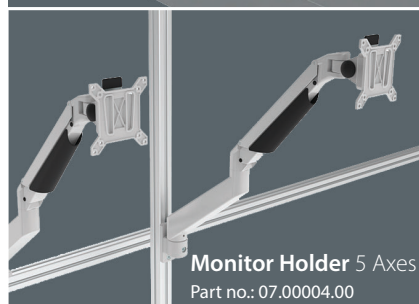

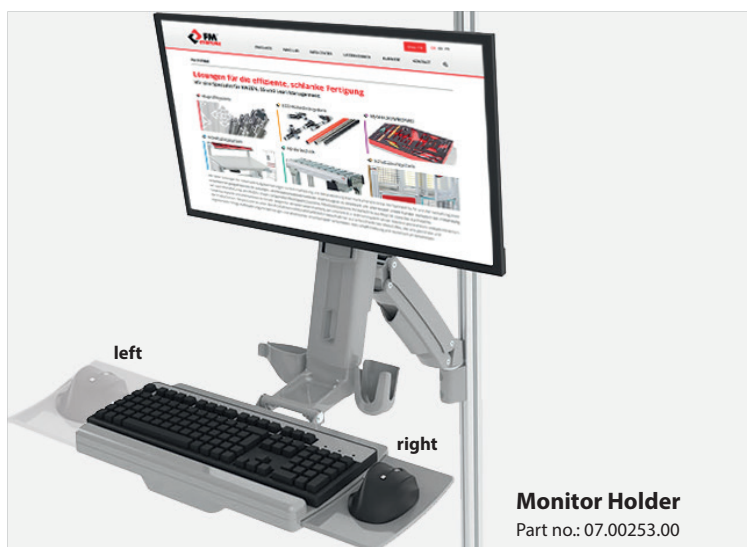

In addition to keeping **workspaces organized according to the LEAN 5S principle**, our holders also support workplace health. Thanks to customizable height and angle adjustments, they perfectly adapt to employees' needs, reducing neck strain and fatigue. This, in turn, increases **long-term health and improves work quality**—no more makeshift solutions or wobbly screens. With our monitor and tablet holders, everything **stays stable, flexible, and perfectly tailored to the user**.

What Makes Our Monitor & Tablet Holders Special?

- **High Precision:**
Robust construction for secure support
- **Easy Installation:**
Quickly mounted & flexibly adjustable
- **Ergonomics:**
Adjustable tilt & swivel angles
- **Compatibility:**
Suitable for various screen & tablet sizes
- **Durability:**
High-quality materials for long-term use

We are always available to answer any questions you may have.
