FLOOR MARKINGS

Whether walkways, hazard zones or storage areas – clear markings improve workplace safety and help ensure compliance with regulations.

Highly visible floor markings also help employees quickly locate materials and storage locations. This speeds up workflows and increases productivity across the entire work area.

Technical specifications subject to change. Illustrations may differ from the actual product.

Temporary Obstacles & Restricted Areas
Versions: Cut-to-size or roll material

Longitudinal markings
Longitudinal markings clearly delimit individual areas from each other and contribute to structuring.
Clearly marked roads and walkways or storage and production areas reduce the risk of accidents. Longitudinal markings in defined colours are used to clearly demarcate areas.

Symbols
Symbols are used for visualisation and allocation of areas. Clearly labelled parking areas minimise the risk of confusion. Symbols in defined colours are used to clearly demarcate areas.

Mandatory signs
The mandatory signs standardised in accordance with ASR A1.3 are used to communicate rules of conduct and regulations in certain places or in special situations. They ensure a safe working environment and help to prevent accidents and injuries.

Prohibition signs
The prohibition signs standardised in accordance with ASR A1.3 prohibit actions in certain places or in special situations and thus contribute to safety in companies.

Warning and information signs
Warning and information signs are standardised in accordance with ASR A1.3 and draw employees' attention to hazards such as industrial trucks or highly flammable materials in designated areas.

Technical specifications subject to change. Illustrations may differ from the actual product.

FLOOR MARKINGS
Tape

The established tape is forklift and abrasion resistant. The backing material of our floor markings is coloured throughout, which prevents abrasion. The specially developed high-performance adhesive ensures extremely strong adhesion to almost all interior surfaces.

The prefabricated corner elements for 90° and 45° angles make it easier to create corners with our tape products. They are available in nine standard colours: red, white, light blue, yellow, green, black, dark blue, orange and light grey.

Tape

Identcode + colour code	Width (mm)	Roll length (m)	Colour = x

Order example
Tape, 50 metres, in green = Identcode + colour code **LL75-05**

Prices, other dimensions and colours on request

FLOOR MARKINGS

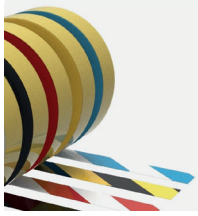
Tape hatched

The two-coloured hatched tape is used to demarcate different areas.
The floor marking is self-adhesive and extremely durable against colour abrasion, as it is printed on the underside.

Thanks to a high-quality adhesive layer, the two-colour tapes also have excellent adhesive properties.

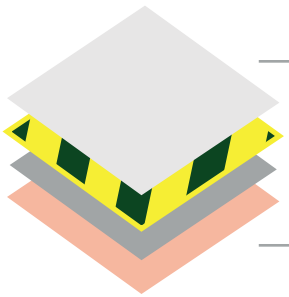
The hatched floor marking tapes are available in many popular colours and formats.

Tape hatched



Identcode + colour code	Width (mm)	Roll length (m)	Colour					
LL50-x	50	25	BY	BW	GW	RW	SW	25 metres
LL75-x	75	25	BY	BW	GW	RW	SW	25 metres
LL100-x	100	25	BY	BW	GW	RW	SW	25 metres

Order example
Tape, hatched, width 75 mm, length 25 metres in red/white = Identcode + colour code **LL75-RW**



The tape is printed on the reverse side.
The colour application cannot be rubbed off at the front as it is protected by a film.

Prices, other dimensions and colours on request

Technical specifications subject to change. Illustrations may differ from the actual product.

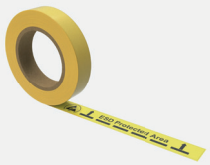
FLOOR MARKINGS

Tape ESD

ESD
ESD floor markings are self-adhesive and mark ESD-sensitive areas. The floor markings are not conductive.

Customised
Customised floor markings are self-adhesive and are printed individually according to your specifications.

Tape ESD



Identcode	Width (mm)	Roll length (m)

FLOOR MARKINGS

Transparent floor window

Floor windows are used to attach printed documents to the floor, allowing different areas to be labelled.
The floor windows are self-adhesive and available in various colours and sizes.

The application of barcodes is also possible with our floor windows. A specially anti-reflective surface texture enables error-free scanning.

Transparent floor window

	Identcode + colour code	Designation	Width (mm)/ Length (mm)	Colour = x	
	LL-KL-A4-x	DIN A4	400/310	01 02 03 04 05 06 07 08 88	10 pieces

FLOOR MARKINGS
Cutter & Cleaner

Cutter

Identcode	Height (mm)	Width (mm)	Length (mm)	
LL-AV100	3	112	260	1 piece

Our cutter helps you to cut the tape to exact lengths and mitre-cut it precisely. Cutting takes place inside the device, which prevents injuries.

The clamping effect prevents the tape from slipping. The cutter is suitable for the 50/75/100 mm widths of our Floor markings.

Cleaner

Identcode	Contents	
30001313	2l canister	1 canister

Before applying the Floor marking it must be ensured that the floor is free of dust, oil and dirt.

To ensure this, we recommend our cleaner. The cleaner is environmentally friendly and pH-neutral. It can be easily filled into cleaning machines, high-pressure cleaners or steam cleaners for convenient use.

- **pH-neutral**
- **biodegradable**
- **odourless**
- **environmentally friendly**
- **no VOCs**
- **water soluble**

Prices, other dimensions and colours on request

FLOOR MARKINGS

ProSign

The ProSign offers a modern and flexible solution for floor marking using light projection – completely without adhesive tape or paint.

Equipped with a powerful high-performance LED, the projector delivers clear and bright projections that remain highly visible even from a distance. Thanks to the adjustable lens, both focus and projection angle can be precisely set, allowing symbols to be optimally aligned with the desired area. If needed, a rotation function for the lens can be activated or deactivated to respond flexibly at any time.

The robust construction with a dustproof housing and durable wall mount ensures long-term use in dry indoor and outdoor environments. At the same time, the ProSign impresses with its energy efficiency, which helps reduce costs and protect the environment.

Another highlight: The interchangeable motifs can be adapted easily and quickly to individual requirements – ideal for changing processes, temporary markings or special safety zones.

Abschneidevorrichtung

	Designation	Power Supply	Projection Distance	Colour Temperature	Motif Change	LED Power	Protecti-on Class	
	ProSign 40	230 V AC	up to 15 m	6000 K	Tool-free, Ø 37 mm slide holder	40 W	IP65	1 piece
	ProSign 100	100–240 V AC	up to 20 m	8000–8500 K	Tool-free, Ø 37 mm slide holder	100 W	IP65	1 piece

Technical specifications subject to change. Illustrations may differ from the actual product.

FLOOR MARKINGS

Floor labelling signs

The floor labelling signs are self-adhesive and can be driven over. They are printed on the underside, which prevents the colour from rubbing off.

The warning and information effect of the floor labelling signs significantly increases safety at work.

Mandatory signs**

	Identcode	Designation	Ø (mm)	
	LL-Sign-600-1	Use a mask	600	1 pc.
	LL-Sign-600-2	Use head protection	600	1 pc.
	LL-Sign-600-15	Use hearing protection	600	1 pc.
	LL-Sign-600-14	Use eye protection	600	1 pc.

Prohibition signs**

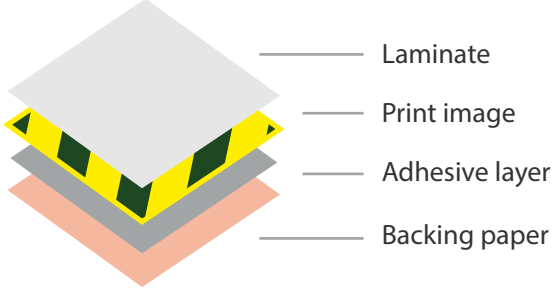
	Identcode	Designation	Ø (mm)	
	LL-Sign-600-21	No smoking	600	1 pc.
	LL-Sign-600-23	No access for forklift trucks and other industrial vehicles	600	1 pc.
	LL-Sign-600-7	Do not obstruct	600	1 pc.
	LL-Sign-600-22	No thoroughfare	600	1 pc.

Mandatory signs**

	Identcode	Designation	Ø (mm)	
	LL-Sign-600-9	Warning of industrial trucks	600	1 pc.
	LL-Sign-600-10	Warning of obstacles on the ground	600	1 pc.
	LL-Sign-600-20	General warning sign	600	1 pc.
	LL-Sign-600-12	Warning of toxic substances	600	1 pc.

** Conform to the standards and regulations in accordance with ASR A1.3.

Further symbols, fire safety signs and exit signs on request.



The tape is printed on the reverse side.
The colour application cannot be rubbed off at the front as it is protected by the film.

A high-quality adhesive layer is used for the floor markings.

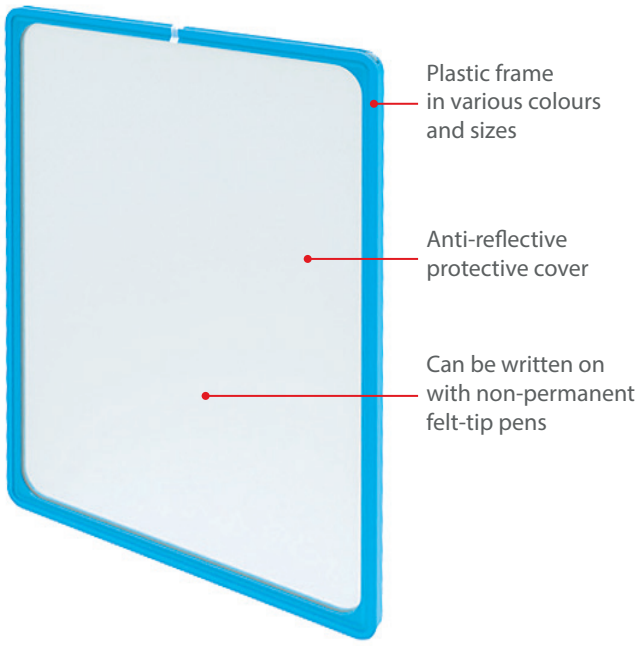
WAREHOUSE SIGNAGE

The robust and easy-to-use frames make it possible to label parking areas, storage locations, workstations and racks.
They are non-reflective, can be written on and can be used optimally for visualisation and to exchange information. Thanks to the large selection of accessories, all areas of your company can be customised.

Technical specifications subject to change. Illustrations may differ from the actual product.

WAREHOUSE SIGNAGE

Poster frame



The poster frames are available in sizes from DIN A5 to DIN A1 and 8 different colours. They can be used in both portrait and landscape format. The scope of delivery includes the transparent protective cover with an anti-reflective surface and fastening clip.

CONTAINER LABELLING

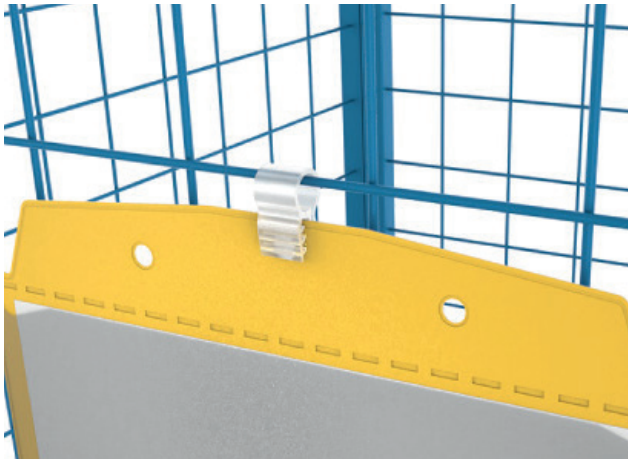
For the successful implementation of the 5S principle, it is crucial to label all containers clearly and unambiguously.

Regardless of whether they are KLT containers, Euroboxes, plastic containers, mesh boxes or any other type of container: our extensive range of accessories offers the right solution for every requirement.

Technical specifications subject to change. Illustrations may differ from the actual product.

CONTAINER LABELLING

Transparent pockets for hanging



There is no suitable way to affix labels to many containers. This is where the display pockets for hanging help.

The transparent pockets are available in various DIN formats and colours and optionally with a rain flap.

CONTAINER LABELLING

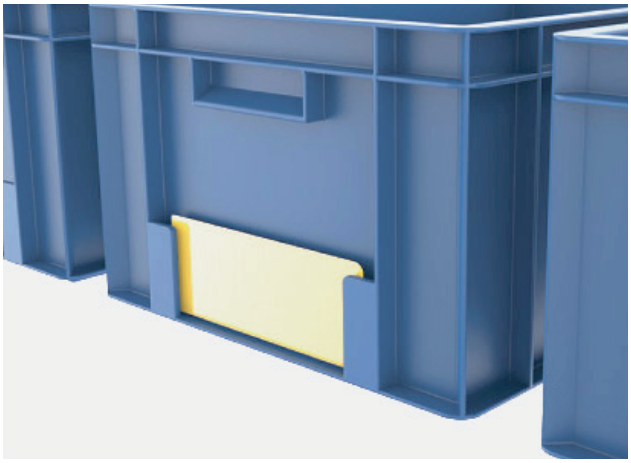
KANBAN sleeves



The robust KANBAN sleeves offer a versatile solution for efficient organisation in different working environments. They are available in various colours and designs and are suitable for reading with scanners.

The sleeves are also compatible with standard KLT containers and Euroboxes. By simply plugging them into KANBAN panels, they enable clear visual control of processes.

WAREHOUSE LABELLING

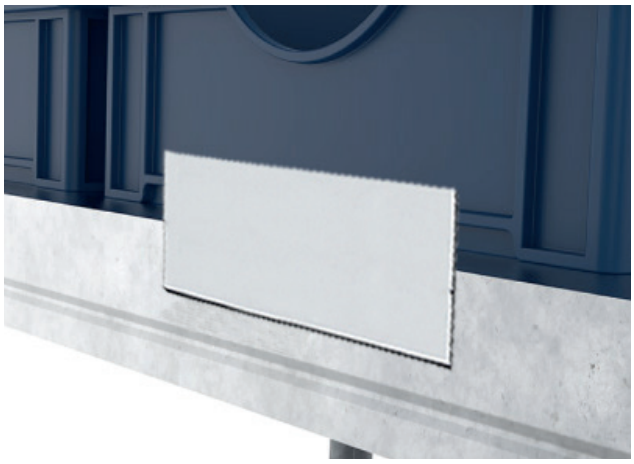
Transparent magnetic sign, open at the side/open at the side and top



The **open-sided transparent magnetic sign including labelling board** is easy to attach thanks to the full-surface magnetic back.

The integrated transparent cover protects the labelling board from soiling and keeps the sign clean.

The **transparent magnetic sign, which is open at the sides and top**, is suitable for quick and easy replacement of labelling. It is fully magnetic on the back, reusable and convenient for changing labelling.

Matching paper labels must be ordered separately.

MAGNETIC BOARDS AND WHITEBOARDS

In production areas, whiteboards are used, for example, to display quality results, support product and team communication, employee training, and continuous improvement processes (CIP).
They are also employed as shop floor boards, planning boards, or information boards – for key figures, target deviations, action tracking, shift logs, audit results, or customer feedback.

Suitable accessories help to share, organize, and visualize information easily.

Shopfloor, training and information boards can be found in our ECO pipe connector systems catalogue in chapter 1. 39.
You can download the catalogue here:
https://www.fm-systeme.de/info-center/kataloge-flyer/

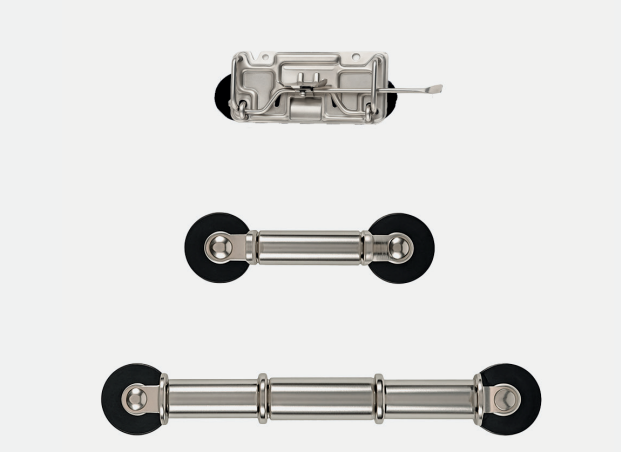
MAGNETIC BOARDS AND WHITEBOARDS

Magnetic ring binders



The magnetic ring binders are the practical solution for organising lists and documents. They are mobile and can be used flexibly at different locations.

The ring binders make it possible to remove individual documents without having to remove the ring binder. This can even be done with one hand using the opening lever.

The rubberised magnetic feet ensure a secure hold on metal surfaces and leave no traces when removed. The surface remains unscratched and painted surfaces are protected.

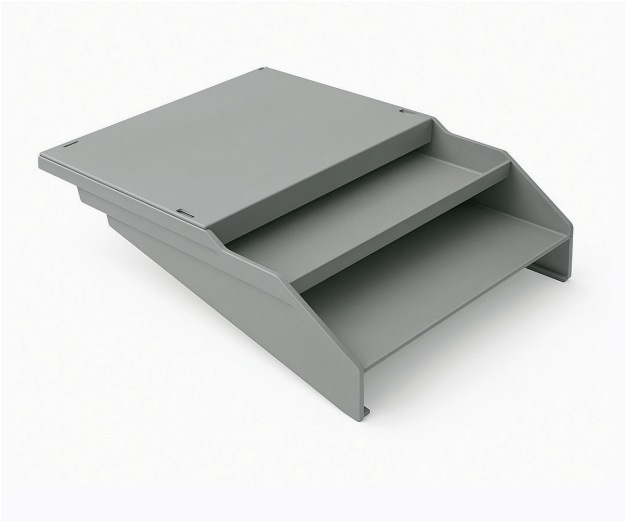
Magnetic ring binders

Identcode	Number of rings	Dimensions (mm)	
30002775	2 x Ø 35	155 x 55	1 pc.
30002776	4 x Ø 35	317 x 55	1 pc.
30002777	2 x Ø 45	115 x 50	1 pc.

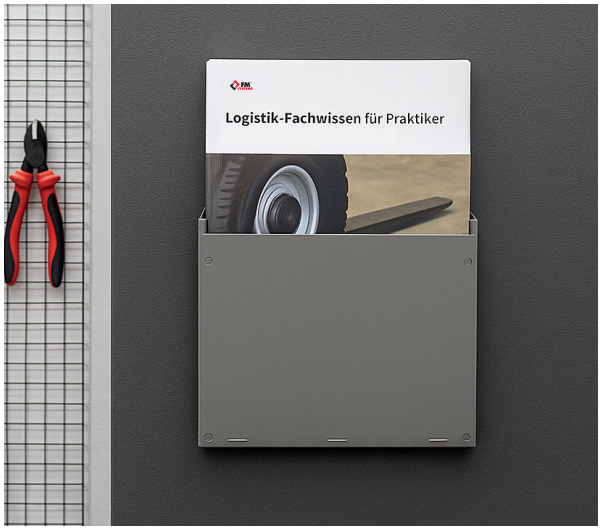
Technical specifications subject to change. Illustrations may differ from the actual product.

MAGNETIC BOARDS AND WHITEBOARDS

Literature display



The literature display offers an optimal transparent compartment system for all areas of the company. It consists of a powder-coated end panel, two wall brackets and two or six compartments.



The literature display is available in 4 colours. It can be used both in **portrait format** DIN A4 and in **landscape format DIN A4** and can be expanded as required.

Literature display

Variant	6 compartments	2 compartments	Colour	
Identcode	30002763	30002767	red	1 pc.
	30002764	30002768	grey	1 pc.
	30002765	30002769	blue	1 pc.
	30002766	30002770	yellow	1 pc.

MAGNETIC BOARDS AND WHITEBOARDS

Literature display, magnetic

The transparent polystyrene literature display keeps the magnetic board organised. The compartments offer the option of securely storing brochures, information sheets or documents and, depending on how they are mounted, placing them directly at eye level. They can be easily attached in the desired location by drilling holes or using the magnetic strips on the back.

The literature display provides an overview and makes it easier for employees to access important information.

Literature display, magnetic

MAGNETIC BOARDS AND WHITEBOARDS

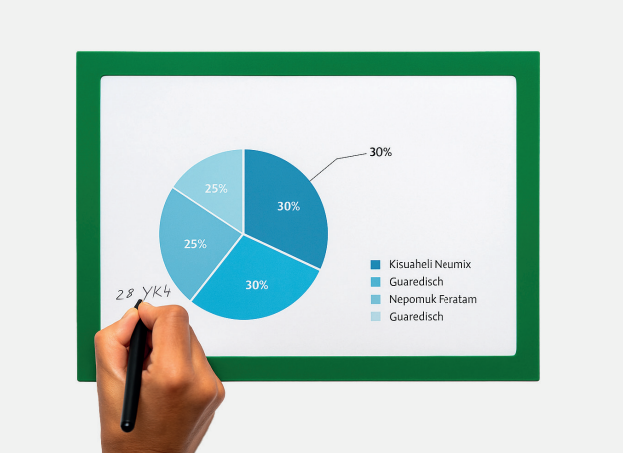
Magnetic transparent windows to write on



Thanks to the write-on transparent windows, you can label important documents such as cleaning lists or maintenance schedules directly and easily.
The magnetic strips on the back on three sides ensure strong adhesion while also allowing the documents to be changed easily, as the frames can be opened on one side.

The magnetic frames are available in different colours, which helps to clearly identify and organise different subject areas.

Magnetic transparent windows to write on

Identcode DIN A3	Identcode DIN A4	Colour	
30004024	30004029	red	5 pieces
30004025	30004030	green	5 pieces
30004026	30004031	blue	5 pieces
30004027	30004032	yellow	5 pieces
30004028	30004033	silver	5 pieces

MAGNETIC BOARDS AND WHITEBOARDS

Magnetic heading windows

Magnetic heading windows help you to structure your magnetic boards and whiteboards.

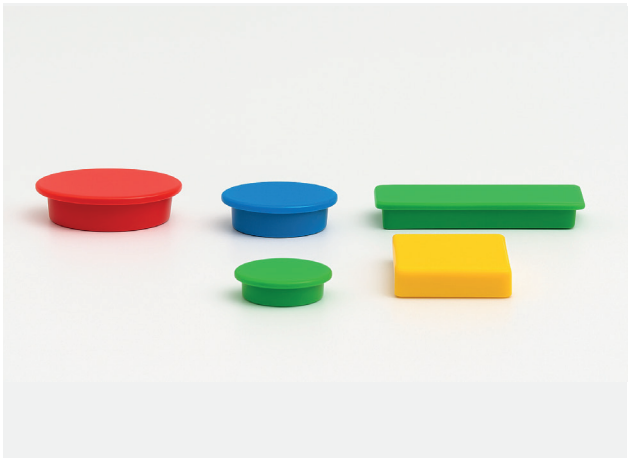
The windows are available in different colours and can therefore be optimally combined with the magnetic frames.

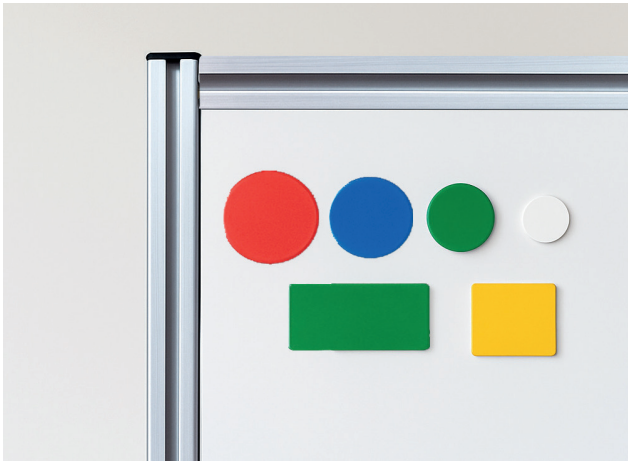
Magnetic heading windows

Identcode A5 landscape/ DIN A4 portrait	Identcode A4 landscape/ DIN A3 portrait	Colour	
30004008	30004013	red	10 pieces
30004009	30004014	green	10 pieces
30004010	30004015	blue	10 pieces
30004011	30004016	yellow	10 pieces
30004012	30004017	silver	10 pieces

MAGNETIC BOARDS AND WHITEBOARDS

Organisation magnets with neodymium magnet





The coloured organisation magnets with a neodymium magnet are characterised by strong adhesion – even with several documents. The grip edge prevents slipping.

Organisation magnets with neodymium magnet

Size	Ø 18 mm	Ø 25 mm	Ø 30 mm	Ø 40 mm	35 x 35 mm	55 x 22.5 mm	Colour

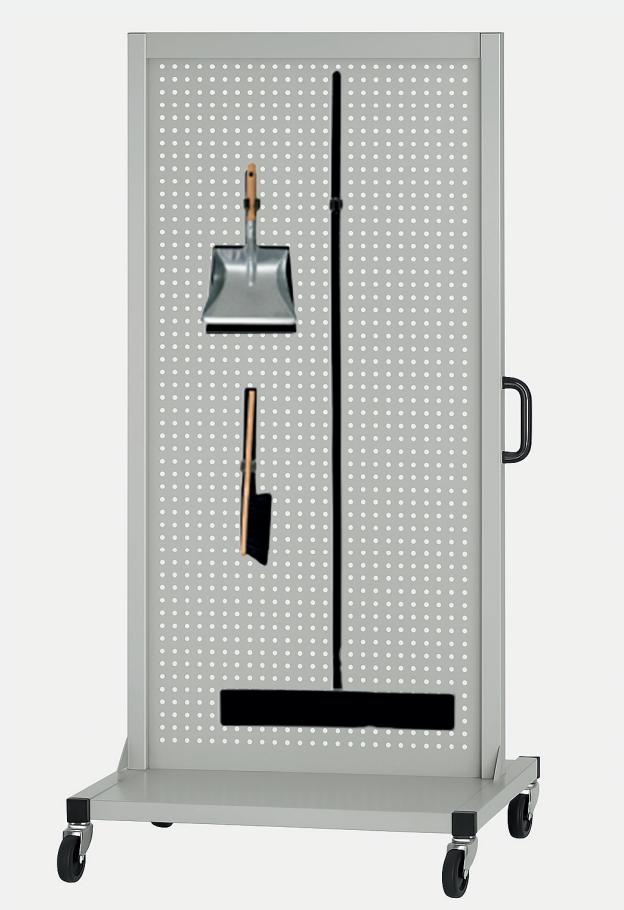
SHADOWBOARDS

Shadow stickers and shadow magnets



Shadow stickers and shadow magnets are the ideal solution for marking utensils on perforated boards or walls. Missing or incorrectly positioned tools are recognised at a glance, which significantly reduces access times.

Shadow stickers are applied by removing the backing paper.

Shadow magnets adhere to all suitable surfaces.

Customised printing and sizes on request

FM shadowboards can be found in our ECO pipe connector systems catalogue in chapter 10.
You can download the catalogue here: https://www.fm-systeme.de/info-center/kataloge-flyer/
